RSL Care has recently purchased additional land adjoining the initial parcel, this will allow for an expanded development. Funding is now available for the construction of the 240 place low and high care units and funding is available so that a start can be made on the independent living units. It is expected that Council will shortly grant the development approval and once that is received it is expected that construction will commence.

RSL Care has now opened a list for expressions of interest in the independent living units. Anyone wishing to express an interest can do so by calling 1300 558 648.
